Proposal P-014

PENDING REVIEW

Mentee 014 + Mentor 027

PARTICIPANT-PROVIDED FIELDS

Mentee 014	Mentor 027
Climate data	Climate data
Seeks reproducible analysis	Offers reproducible analysis
Time zone UTC+01:00	Time zone UTC+02:00
Tue 14:00-15:00 UTC	Thu 14:00-15:00 UTC
Thu 14:00-14:30 UTC	

Preferred session: 60 minutes

No pairing is created until an administrator approves.

Reject | Change mentor | Review approval

Why this suggestion?

Illustrative rules v0.1 / no ranking score

TOPIC MATCH

Same research topic

Both demo profiles specify climate data.

GOAL MATCH

Relevant mentoring offer

Reproducible analysis is offered and requested.

REVIEW NEEDED

Only 30 minutes overlap

Below the mentee's preferred 60 minutes. Preference, not a hard constraint.

1 Keep exceptions visible

Missing fields and hard conflicts stay out of the reviewable pool. A softer preference remains visible for human judgment.

2 Explain the evidence

Show the stated fields behind a proposal, including caveats. No inferred personal traits or opaque compatibility score.

3 Leave the decision to people

Reject, adjust or review approval. The next page follows one deliberate mentor change, then the approval receipt.

DESIGN NOTE The queue and rules are illustrative design choices, not an agreed matching policy.

Human approval with a clear record

An administrator changes the proposal, checks the consequence and records the decision.

FICTIONAL DATA STATIC SCREENS FICTIONAL SYSTEM

Pairwise **Adjust proposal** SCREEN 02 / STATIC

Choose a better time overlap

Proposal P-014 / Mentee 014

Original / Mentor 027

Climate data + analysis

30-minute shared window

Selected / Mentor 042

Climate data + analysis

Tue 14:00-15:00 UTC

Reason for change

Full 60-minute overlap meets the stated preference.

Approving marks both profiles as matched.

They leave future suggestions until manually reactivated.

Approve pairing

Pairwise **Audit receipt** SCREEN 03 / STATIC

APPROVED BY ADMIN

Pairing MP-006

Mentee 014 + Mentor 042

Matched - excluded from new suggestions

MOCK AUDIT RECORD

10:16	Proposal P-014 reviewed
10:18	Mentor changed: 027 to 042
10:20	**Pairing approved by Admin A-01**

Demo day 01 / Times UTC / Rules v0.1

Store action, actor, IDs and rationale; avoid profile copies.

Access stays narrow

Illustrated boundaries, not implemented authorization

Invited mentor

View and edit own profile only

No other participant records

Invited mentee

View and edit own profile only

No browse, search or messaging

Research Commons administrator

Manage accounts / Run suggestions / Review decisions / Audit

Manual reactivation is separate and logged. No automatic rematching.

PRODUCTION GATE Role enforcement, admin MFA, encryption, hosting and security validation still require implementation and testing.

CONCEPT Fictional research network | Illustrative matching workflow and data
